Quality is "First and Formost"

- **HEAVY DUTY CONSTRUCTION**
- **REPEATABLE SETTINGS**
- **TOOLLESS CHANGEOVER**
- **UP TO 200 CARDS PER MINUTE**
- **ADDED PRODUCT PROTECTION**

AUTOMATICALLY CUT AND FEED CARD STOCK

The new Formost Card Sheeter works in conjunction with other Formost packaging equipment to create the desired package for your product. It automatically cuts and places cards into the infeed flights of Fuji-Formost horizontal wrappers or Formost Baggers at speeds of up to 200 cards per minute.

The cards can help to unitize packages containing multiple products, stabilizing the products and helping to provide the most attractive package. Many vend packs can benefit from the inclusion of cards in the package which can provide protection from rough handling and prevent breakage or other product damage.

Machine Specifications	
Operating Speed	up to 200 cpm
Card Cutoff Length	2" - 14"
Maximum Card Stock Width	9"
Maximum Roll Diameter	36"
Core Diameter	6"

These specifications may vary according to special applications. Specifications are based upon the latest information available at the time of publication. Formost reserves the right to make changes in materials, equipment and specifications without prior notice.
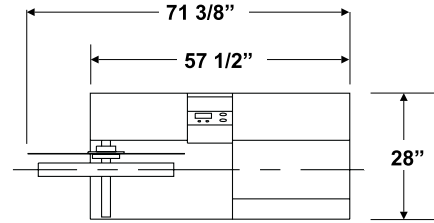

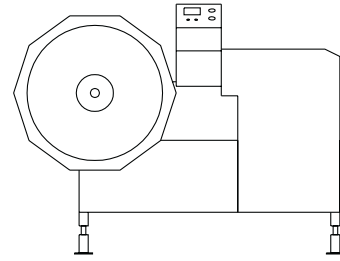

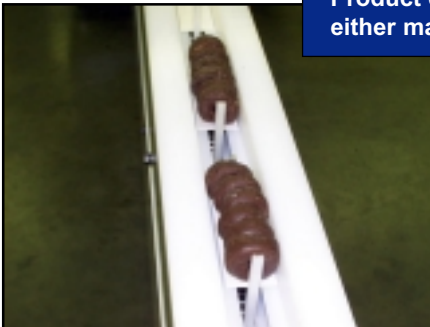

71 3/8"

57 1/2"

28"

Separate AC motors drive the card stock roll and knife. A dancer roll and brake control card feed tension.
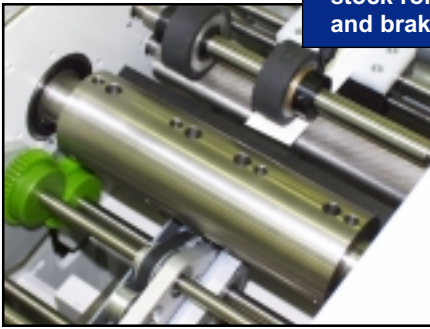

The Card Sheeter is electronically synchronized with the infeed of the Fuji-Formost Wrapper or Formost Bagger. Card cutoff length is adjustable in 1/10" increments.

Product can be placed on the card either manually or automatically.

Standard Features

Electronic Timing
Timing changes can be done on the fly during operation.

Repeatable Settings
Easy digital changeover between card settings.

Roll Stock Sensor
Machine automatically shuts off when card stock is depleted.

Optional Features

Low Roll Warning
Alarm indicates when card stock roll nears depletion.

Registered Card Stock
System can be equipped to handle registered card stock.

"U" Boards
Scoring and pre-folding of cards.
